Rotkreuz, 26.05.2026 – GLAUX GROUP AG is becoming part of CONVOTIS Schweiz AG. This step creates an even stronger digitalization partner for companies and public organizations in Switzerland. The merger combines GLAUX's long-standing customer proximity and specialist expertise in digital applications for the public sector with CONVOTIS's comprehensive service portfolio in sovereign cloud solutions, modern security architectures, digital platforms, AI-supported applications, and managed services.

With the integration, CONVOTIS Schweiz AG is systematically expanding its expertise in e-government and digital specialist solutions for authorities, administration, and social institutions. At the same time, the company is strengthening its technological and operational capabilities and laying the foundation for further sustainable growth in the Swiss market.

"With GLAUX GROUP AG, we are gaining a company with strong specialist expertise, close customer relationships, and many years of experience in the public sector. Together, we combine specialized solutions with scalable platform, cloud, and security services, thereby strengthening our position as a digitalization partner for companies and public organizations in Switzerland," says Vito Critti, CEO of CONVOTIS Schweiz AG.

José Lopez, Group CEO of CONVOTIS, underlines the significance for the Group's growth trajectory: "The integration of GLAUX is another important step in expanding the CONVOTIS Group as a leading provider of digital services, AI, and sovereign cloud & security in the European mid-market and public sector. Together, we are creating a strong combination of specialist expertise, customer proximity, and scalable technology competence."

"Our customers will continue to benefit from GLAUX's proximity, expertise, and reliability – now complemented by additional technological breadth, scalable services, and CONVOTIS's infrastructure expertise," says Ueli Aregger, CEO of GLAUX GROUP AG. "This creates the foundation for supporting organizations in Switzerland even more comprehensively over the long term in the digitalization, operation, and further development of their IT landscapes."

CONVOTIS Schweiz AG

CONVOTIS Schweiz AG supports companies and organizations in Switzerland in the planning, implementation, and operation of modern IT and digitalization solutions. The company supports its customers with comprehensive services in the areas of IT infrastructure, cloud, security, managed services, and digitalization. Long-term partnerships, high service quality, and practical solutions are at the core of its approach.

GLAUX GROUP AG

GLAUX GROUP AG is a Swiss digitalization partner for specialist solutions, digital platforms, and customized IT solutions. The company supports customers in particular from administration, authorities, the judiciary, healthcare, and social institutions with personal consulting, strong domain expertise, and practical solutions.
